BAC	KGROUND
	ABOUT
	Full stack software developer in React, Node JS, and ASP. Net. Experience with implementation of complex client side web applications using modern Javascript technologies and previous experience working on scalable high-performance back end server infrastructure. My favorite hobby is designing and implementing video games with Unity game engine.
	WORK EXPERIENCE

Co-Founder, Archenemy Interactive

May, 2016 - Mar, 2019 $\ \square$ 2 years 10 months

Founded group to develop VR content for commercial games and for local organizations and busnisses. Worked as lead on the Fleet Hackers VR project, served as lead writer, programmer, and art design. Developed VR tools for motion capture, ragdoll systems, and robotic sensor controls. Prototyped many games including Ixion and Tower of the Sun for HTC Vive.

- Won many local awards for outstanding innovation and creativity in the local Fargo/Moorhead Area
- Held the championship for Fargo Game Makers 2 Years in a row.
- o Continue to spread VR education among Fargo youth, and advocate for VR development.

Senior Software Engineer, Bushel Inc.

Apr, 2020 - Jan, 2021 ☐ 9 months

Works on Bushel's cloud payments solution, back end API developer. Helped with dev ops tasks such as setting up Docker containers and Azure Dev Ops pipelines. Worked with event messaging in Pulsar and contributed to architectural design decisions involving microservices. Utilized Java Spring Boot and Cockroach DB.

SQL Developer, Marvin Windows

Mar, 2018 - Apr, 2020 ☐ 2 years

Database administration, full stack web-development, and HMI(human-machine interaction) application development. Works on web applications that run on React, Node JS ASP.Net and Ignition to create solutions automation and manufacturing processes.

- Leaded the adoption of DevOps, Continuous Integration, Distributed Version Control Systems, and created
 Development and Testing environments for SCADA Systems.
- Created web based infrastructure for remote client management across 4 Marvin Plants.
- Developed web applications for managing machine settings for various parts configurations.
- Database schema design and overhaul of many major backend systems.

Teaching and Research Assistanships, NDSU

Jan, 2016 - May, 2018 ☐ 2 years 4 months

Employed as a teaching assistant for the computer science department in CS 160. Then trasitioned into a Resarch assistant for the Upper Great Plains Transportation Institute(UGPTI). Maintained databases, legacy code, and successfully lead the development multiple new product releases for the DOT(Department of Transprotation) and UGPTI offices.

- Worked on realtime data capture of roadway conditions using an Android device.
- Developed a new version of the Geographic Roadway Inventory Tool with ReactJS, Semantic UI, and Node JS.

Software Developer, OATI

Jun, 2013 - Nov, 2015 \square 2 years 5 months

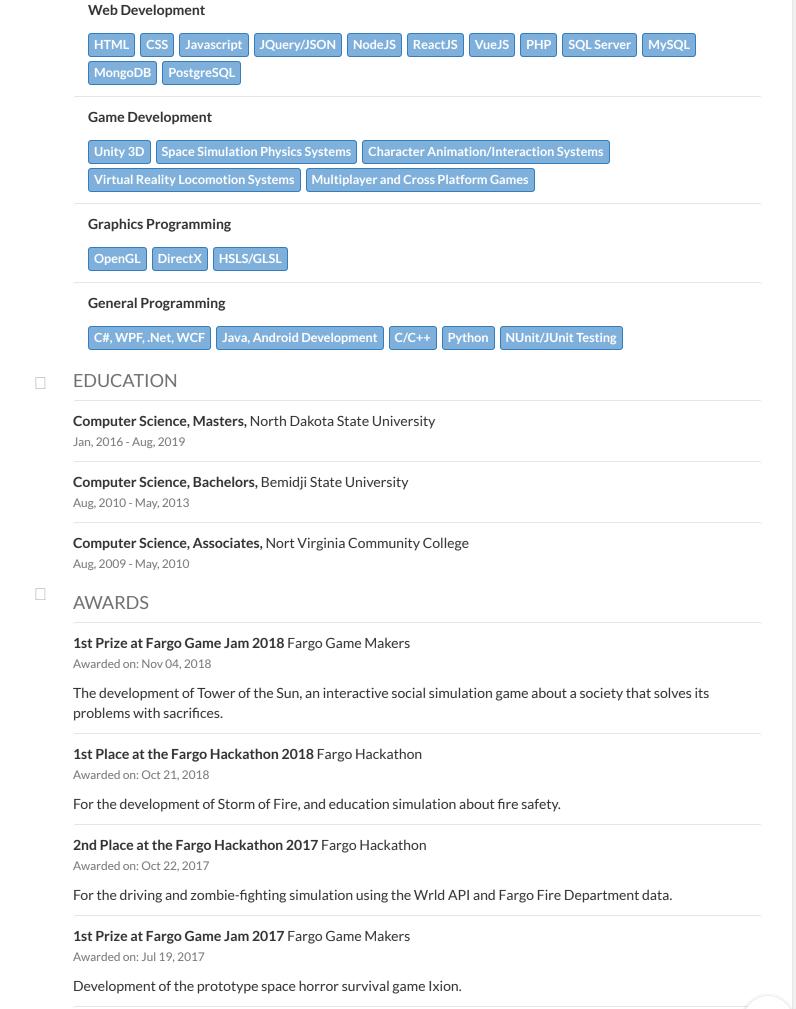

Employed as a professional developer creating software for the one of the country's largest energy industry software company. Developed solutions to schedule transmissions of electrical energy and made strides in advancing the company in automated testing, and application-to-application communication infratructures.

- Lead developer of the Realtime Net-Scheduled Interchange application for monitoring real-time and near future transmissions across power grids.
- Lead development on integration of inter-company data transfer using SOAP XML via TSL.
- Improved testing infrastructure by creating Unit Tests in NUnit and training new QA teams for automation of Unit Tests.

Internship - Software Developer & Technical Designer, Karvakko Engineering

May, 2012 - Mar, 2013 □ 10 months

Worked as a software developer. Created a scheduling program, and a GIS application that interfaced with Google Earth. In addition, also designed 3D models for engineering projects, or future development plans. Used 3Ds Max and Gimp to develop a photo-realistic demonstration of the Bemidji Airport existing and development sites, along with a virtual tour of the Bemidji Airport for potential investors, landscape developers, and Civil Engineers.
